

PRESS RELEASE

Lancet Laboratories Rwanda partners with AIM LifeCare Multi-Specialty Clinic to enhance diagnostic services

LANCET LABORATORIES RWANDA, a leading and trusted diagnostic provider in Rwanda, has partnered with AIM LifeCare - Multi-Specialty Clinic, a state-of-the-art healthcare facility, to offer comprehensive laboratory services in the upscale Gacuriro neighbourhood of Kigali.

This strategic partnership reinforces Lancet Laboratories Rwanda's commitment to providing world-class diagnostic services, focusing on accuracy and quality while supporting its customers and partners in delivering seamless and personalised care. The partnership aims to leverage the strengths of both organisations to cater to the unique needs of patients in the Kigali area.

Lancet Laboratories Rwanda, which opened its doors to provide affordable diagnostics in Rwanda since 2015, has a long history of working closely with medical professionals. **Protais Ntezimana, General Manager of Lancet Laboratories Rwanda**, emphasised the company's dedication to collaboration: "Over the past years, we have remained committed to working with public and private hospitals, clinics, researchers, NGOs, corporates, doctors and other medical professionals to provide the best possible care for our patients."

The new partnership will see Lancet Laboratories Rwanda's full-service laboratory, located within AIM LifeCare Multi-Specialty Clinic, handle routine and specialised tests. The pathology department will be managed by the head of office, which will further augment diagnostic capabilities and professionalism. This expansion will also lead to the employment of eight additional personnel, reinforcing Lancet Laboratories Rwanda's commitment to local job creation and capacity building.

AIM LifeCare - Multi-Specialty Clinic, a new setup founded by Mr. Ali M. R. Manji and

Dr. (Mrs.) Iram Ali Manji, located in the high-end residential area of Gacuriro, offers a comprehensive range of medical services. The clinic prioritises excellence in medical services and executive customer care, making it an ideal partner for Lancet Laboratories Rwanda.

The partnership will not only cater to the residential audience in Gacuriro, Nyarutarama, and Kagugu but also serve nearby business districts and residential areas. Additionally, the clinic's location near several large developments, including Vision City and Vision 2020 will enable it to better serve corporate organizations, enhanc-

ing the wellness of its employees.

"We are excited to partner with AIM LifeCare - Multi-Specialty Clinic to provide top-notch diagnostic services to the people of Kigali," said Protais Ntezimana. "Together, we will strive to deliver exceptional care and support the local healthcare community in achieving its goals. This partnership is well aligned with the Government's master guide for private sector investments in the health sector".
